

LEGEND Grade 80 Weld On Lifting Point

Legend Grade 80 Weld On Lifting Lugs can be welded onto any carbon steel surface as a lifting point, as a fixed anchor point for spreader beam attachment, or as an anchor point for load restraint applications.

All Legend Grade 80 hooks and components feature clear distinguishing marks for easy identification.

- Surface Finish: Painted Yellow
- Safety Factor: 4:1
- Complies to AS 3776
- Welding must always be carried out by a qualified welder under AS 1554.1
- Test Certificates available upon request.
